LINDEN HOMES

 **NatraTex**[®]
Cotswold

At Cholsey Meadows, a residential development by Linden Homes in Oxfordshire, 6mm NatraTex Cotswold was chosen to provide 3000 m² of decorative paving for roads and footpaths. The product was specifically applied to Thames View, a secluded area behind an electronic gate at the end of the estate, surrounded by flowing fields and the River Thames. This picturesque setting demanded a surface that was both environmentally sympathetic and highly durable.

NatraTex Cotswold delivered a smooth, long-lasting finish that enhances the aesthetic appeal of the estate while ensuring safety with its resistance to cracks and potholes. Unlike resin-bound alternatives, NatraTex is laid similarly to conventional macadam, making it a versatile choice for highways, footpaths, and other applications. Virtually maintenance-free and designed to retain its color, NatraTex is a practical and attractive solution that perfectly complements the natural beauty of Cholsey Meadows.
