

Exeter College required a high-quality surfacing solution as part of a wider campus regeneration project to create attractive, accessible and durable external spaces.

- High footfall durability
- Safe, accessible pedestrian routes
- Seamless integration with surroundings
- Low maintenance requirement

Solution

NatraTex® Cotswold was selected for its natural buff tones and durability. Installed using conventional asphalt methods, it delivers a seamless, decorative finish resembling natural stone.

Result

- Visually cohesive campus
- Smooth accessible pathways
- Durable under continuous use
- Low maintenance surface

Outcome

A modern, durable and visually refined campus environment that enhances accessibility and user experience.
