

 **NatraTex**[®]
Cotswold

Located on the Dorset coastline, Little Sea Holiday Park required a high-quality decorative surfacing solution to enhance its landscaped recreational areas, creating attractive pedestrian pathways.

The project required a surface to withstand high footfall, seasonal use and coastal weather while maintaining a natural appearance.

Solution

NatraTex® Cotswold was selected for its natural buff tones and durability, providing a seamless bound surface installed using conventional asphalt techniques.

Result

A visually cohesive, durable and low-maintenance surface that enhances the overall visitor experience.
